Let's **Innovate!**

How can you help Sunita Sharma (65+ years old) to live a healthier and better life?

Identify one use case for elderly care (for the age group 65+) and create a **working prototype** to demonstrate your idea using technology known to you.

Expected Efforts: 2-3 days

What we are looking for this in this activity?

Innovation & Ideation	Coding Skills	Your magic touch
➢ **Originality in idea** ➢ **Research skill** ➢ **Value outcome**	➢ **Logic** ➢ **Rapid Prototyping** ➢ **Coding practice**	➢ **Secret ingredient for going towards expertise**

Process

- ➢ Check-in code in a GitHub repo with README containing description and screenshot
- ➢ Share your GitHub Link in Exercise Submission
- ➢ We will evaluate and let you know if you are shortlisted for the subsequent round.
